"What You Should Know About Your City"

"The helpful kind of patriotism is the kind that grows out of a knowledge of one's own city, of her growth, her people, her property, her government, and her needs. This knowledge develops first an intelligent interest, then a sympathy, then, a reasonable affection, a wise and temperate jealousy for her good name and a wish that she may prosper and grow more beautiful, and finally, a desire to help her to become greater and finer, a bright and clean workshop and a home for the best of men and women." John Cotton Dana.

"Organized Effort on Behalf of Our City"

"The conception of Chamber activities is embodied in one of the adopted slogans 'Organized Effort on Behalf of Our City'—and the Chamber is a success only to the degree that this effort is extended and service rendered impartially, fearlessly, and unselfishly for the benefit of the community. The Chamber has made great strides in further developing the comprehensive character of the organization, which today is more generally recognized as an organized body through which all citizens may work for the advancement of the civic and commercial welfare of the city. It is non-political and non-sectarian. It voices the opinion of a membership composed of all shades of thought and of all lines of commercial and professional activity. It is the voluntary, collective contribution of public-spirited men and women to the common good."
